jerry ma

objective

To simply design to make someone's life a little bit easier. I hope what I end up creating isn't just stuff but a quality of life.

work experience

San Jose State University (SJSU) Communication Disorders & Sciences (CDS) and Industrial Design (ID)

Collaborative Project Internship

Industrial Designer

San Jose, CA July 2022 - August 2022

- Created tactile educational tools for CDS students and clients who have communication/swallowing disabilities in SJSU clinics
- Worked and communicated with a team of CDS students throughout the project for research and understanding the needs for the product
- Managed around tight deadline, budget constraints, and manufacturability
- Prototyped product models via 3D printing and tested them with clients
- Had critiques with other industrial designers and project supervisor
